Objective

Passionate Computer Science student at NED University with a focus on low-code development tools. Proficient in platforms like WordPress, Figma, Flutterflow, and Canva, I excel in creating dynamic, user-friendly websites and applications. Seeking opportunities to leverage my skills in a creative and collaborative environment.

Skills

- Programming Languages: JavaScript, HTML, CSS
- Web Development: WordPress, Elementor, WooCommerce
- Mobile App Development: FlutterFlow (Frontend)
- Tools: Vs Code, Canva
- Soft Skills: Time Management, Team Collaboration, Problem Solving

Experience

April 2023 - June 2023

Internship At NCBC Neduet Karachi

- Developed "My TODO" Application: Successfully created a task management application using Flask and Python, enhancing user productivity and efficiency.
- Collaborated with Development Team: Worked closely with a team of developers to design and implement features, ensuring seamless functionality and user experience.
- Gained Practical Experience: Acquired hands-on experience in web development, backend integration, and deploying applications in a real-world setting.

WordPressFrontendDeveloper
Dignity Tech

Jan 2023 - March 2023

- Advanced Page Building: Utilized Elementor to create visually stunning and highly functional web pages, ensuring a seamless and intuitive user experience for clients.
- Responsive Design Mastery: Developed responsive designs using Elementor, ensuring that websites are optimized for all devices, including desktops, tablets, and mobile phones
- Custom Widget Integration: Integrated custom widgets and plugins within Elementor to extend website functionality, enhancing the overall site performance and user engagement.
